PNEUMATIC TANK TRAILER

MAC LTT offers our customers an extensive line of Pneumatic Tank Semi Trailers, Trains and Truck Mount Tanks. With two strategically located manufacturing facilities, state of the art equipment and a vastly experienced Management, Engineering and Manufacturing staff, we are able to serve you from coast to coast.

In the same tradition that earned MAC Trailer the reputation and respect as the nation's foremost manufacturer of specialty dump, flatbed and transfer trailers, the Company now brings to you the pneumatic tank trailer.

- Higher level of aerodynamics, and lower tare weight to improve fuel economy
- Aerodynamic options available, including but not limited to, internal vapor recovery systems, over turn protection wind dams, and under carriage trailer skirting.
- Enhanced Structural Integrity, and industry proven components to ensure reduced maintenance costs

Safety Ladder

- Retractable handrail fall protection available
- Operated by an air valve located forward of rear fenders
- Safely locks into raised and lowered positions
- When retracted, rails fold down lower than manhole height
- Trailer brakes lock when rails are raised

Whether your dry bulk transporting involves cement, sand, plastic pellets, flour, sugar, feed or ash, MAC offers a size compatible to your haul, and piping-discharge to meet your requirements. Should you require a tandem or multi-axle configuration, for Canada or permitted loads, contact us to review your pneumatic application and needs.
