Lightweight, Aerodynamic, Fuel-Efficient

Innovation is at the heart of our operations at MAC LTT. We're committed to not just meeting, but surpassing, industry standards by integrating new features into our liquid tank trailers. This dedication ensures our tank trailers continue to lead the industry.

Our patented AERO Skirting is built with lightweight materials, designed to enhance aerodynamics and reduce drag. This innovative solution boosts fuel economy, making it an ideal choice for those seeking to maximize efficiency and minimize operational costs.
