

# T.A.L.K.®

## TOTAL AREA LIGHTING KIT

Our patented lighting options are designed to illuminate work areas around the trailer, significantly improving visibility for the safety and efficiency of the drivers.

**T.A.L.K. ARMS** – Our self-illuminated safety T.A.L.K. Arms swing out creating an illuminated safe work zone with red lights on each side and white light on bottom.

**T.A.L.K. INTERLOCK BAR** – The light bar above the API area totally illuminates the work area creating a safe and efficient unloading zone for making hose connections.

**T.A.L.K. LIGHTED HOSE GUARD** – Protect the side of your barrel and add additional lighting to the work area.

**T.A.L.K. LIGHTED LADDER** – The lighting built into the ladder allows your drivers enhanced lighting and safety when using the ladder as well as enhanced lighting in that area for improved safety.

**T.A.L.K. LIGHTED REAR HEAD** – We also offer the added feature of lighting around the rear head to further improve lighting conditions behind the trailer for enhanced visibility and safety at night.
